GREENSBORO CONNECTS

The Greensboro Connects Initiative is a program that connects multiple services with residents of the Town of Greensboro and surrounding areas. This initiative will provide an office-style physical space to organizations including non-profits that provide a service to the community.

Those organizations will have the opportunity to provide services to residents who do not have the financial resources or transportation to access those services. Due to the lack of public transportation in the area, low-income families find it difficult to travel to access these services that are located about 35-45 minutes away.

This initiative seeks to provide Mental Health Services, Substance Abuse, Family Resources/Youth Program, among others.

Greensboro Connects is located at 111 S. Main Street Greensboro MD 21639. For more information about the service schedule contact: Angel Perez, aperez@greensboromd.com or (410) 482-6222.
